

OUTLANDER

LIVE OUTLANDISH

Outlander, built for the time of your life.

Since 1917 Mitsubishi Motors has been at the forefront of technological innovations. Having launched the inventive Super Select 4WD system and the world's first Plug-in hybrid electric SUV, our vehicles have been tested and triumphant on some of the world's toughest terrains including the Dakar rally. These engineering milestones, together with our commitment to reliability and ingenuity sets us apart. As we continue to move forward, pushing the boundaries of innovations, you can rest assured your Mitsubishi has been built for the time of your life.

OUTLANDER

STYLED TO SET YOU APART.

Do your thing and do it in outlandish style. Completely reimagined, redesigned and redefined, the all-new Mitsubishi Outlander gives you the freedom to be yourself, wherever you want to be.

With cutting edge features and rally bred performance built in to its DNA, the bigger, bolder next generation Mitsubishi Outlander is nothing short of revolutionary. Its powerful presence, impressive stance and state of the art technology inspire confidence wherever the journey takes you. Dare to be different. Go there.

BUILT TO SET YOU FREE

The daring and distinct Mitsubishi Outlander is no wallflower. It makes a strong, dignified entrance with confident sculpted lines, muscular flared fenders and broad shoulders. Its bold front dynamic shield and streamlined rear spoiler not only turn heads, they also deliver greater performance and aerodynamics.

Agile and adventurous, the completely reimagined and meticulously redesigned Outlander stands proud with a wider and more dynamic front face, edgier sculptured sides, a horizontal rear design and authoritative 20-inch two-tone alloy wheels*.

Have an open mind.

The new Outlander Exceed and Exceed Tourer's larger and wider panoramic sunroof goes above and beyond. One touch tilt and slide operation opens up the interior cabin to the great outdoors, creating an even greater sense of vast, natural space.

EXCEED YOUR EXPECTATIONS

Once you ease into Outlander Exceed Tourer's exceptionally crafted cabin, you'll instantly relax and unwind. Fastidious attention to detail has been paid to every nuance and feature, right down to the knobs and dials. Advanced human-centric design through the multi-function steering wheel will reassure with simple, intuitive control. Contrasting two-tone black and saddle tan leather upholstery, striking aluminium instrument panel accents and matte carbon trim make a distinguished statement in style.

On the road, a superior combination of exquisite craftsmanship and advanced technology will make you feel at home. An 8-way power adjustable driver and front passenger seat can be customised and memorised to embrace and cradle any body and height.

Accented Diamond stitched leather upholstery coalesces with embedded comfort features including a massage function in both front seats, so you always arrive relaxed. Heated seats in the front row provide welcome winter warmth, while independent tri-zone climate control allows everyone to create their own personal oasis year round.

CHANGE THINGS UP

Outlander's luxurious interior not only offers generous head and legroom, it's incredibly accommodating in more way than one.

With 5 or 5+2 seat flexibility, it provides ample room for busy weeks and even bigger weekends away. All seats can recline for added comfort, while the slide adjustable 40:20:40 split second row and 50:50 split rear third row can fold fully forward to create a multitude of versatile passenger

and cargo configurations. All rear seats can lie flat to create a capacious luggage area and up to 1717 litres of cargo space. Under floor storage add to the wide array of luggage and seating arrangements.

OUT THERE. IN TOUCH.

A wireless smartphone charging tray* means the entertainment or handsfree conversations never have to stop.

Mitsubishi's Smartphone-link Display Audio with 9-inch touchscreen display brings all the fun with you, allowing you to take all the latest smartphone apps on the road with Apple CarPlay or Android Auto™.

March to the beat of your own drum, or playlists.

Go loud and proud. Sound insulating double pane windows and windshields ensure silence is golden, so you can hear every note played through the Outlander Exceed and Exceed Tourer's incredible acoustically tuned 10-speaker Bose® sound system.

The tailgate that's one step ahead

As equally convenient as it is impressive, the Outlander's automatic power tailgate* can be opened simply by placing a foot under its rear bumper. Its lift height is adjustable to prevent contact with low garage doors and ceilings, while a wider rear frame and deeper cavity easily accommodate bulky luggage and equipment.

FORGE YOUR OWN PATH

A high-resolution 12.3-inch full digital driver display continuously updates the status of your Outlander and can be customised to showcase the Outlander's built in satellite navigation, Super All-Wheel Control information, audio entertainment options, and many more important details.

The driver's windscreen projection 10.8-inch head up display can be configured to provide additional information within the driver's field of view without taking your eyes of the road.

Outlander's Super-All Wheel Control system integrates Mitsubishi's revolutionary rally bred full-time, 4WD based technology. Featuring direct coupling with quick torque response, it optimises drive and braking force at each wheel to deliver more power, better cornering and greater stability wherever you are.

Six available drive modes give you the freedom to drive on all kinds of terrains, in almost all conditions.

Normal mode

Optimal performance for everyday use.

Eco Mode

Provides ecological and economic driving.

Tarmac Mode

For agile and fun driving on dry sealed surfaces.

Gravel Mode

Superior handling on rough roads for maximum control.

Snow Mode

Enhances stability on slippery or icy road conditions.

Mud Mode

Provides powerful all wheel driving in muddy or snowy conditions.

GUIDE. PROTECT. CONNECT.

MiTEC

Mitsubishi Motors Intuitive Technology or MiTEC, is an integrated system[^] of brilliant innovations in action, working in unison to guide and protect, alert and connect, even entertain. It thinks like you, reacts like you, before you even know it. MiTEC delivers unsurpassed safety and next generation features to the modern-day driver.

Rear Cross Traffic Alert^{#1}

Mitsubishi's Rear Cross Traffic Alert system helps detect approaching vehicles when reversing. It alerts you via a buzzer sound, and an indicator light appearing in the combination meter and blinking light in the side-door mirror.

Rear Automatic Emergency Braking^{#1}

Rear Automatic Emergency Braking system uses the rear parking sensors to detect obstacles behind the vehicle. If a risk of a collision with an obstacle is detected, audible and visual warnings are given and the system will automatically apply the brakes. Operates when vehicle is in reverse at speeds below 15km/h.

Lane Departure Warning

Mitsubishi's Lane Departure Warning uses a camera to issue an audible alert if your vehicle drifts from its lane while the turn signals are not operating. The system operates at speeds above 60km/h, and will vibrate the steering wheel and flash the lane departure warning light.

Lane Departure Prevention

Lane Departure Prevention uses front camera to issue an alert if the vehicle drifts from its lane while turn signals are not operating. The system operates at speeds above 60km/h, and will vibrate the steering wheel and flash lane departure warning light. The vehicle will also apply the brakes on one side to help return the vehicle to the centre of the travelling lane.

Forward Collision Mitigation³

Mitsubishi's Forward Collision Mitigation system with pedestrian detection, cyclist detection and junction assist detects obstructions ahead and issues a visual and audible alert when there is a danger of collision, automatically applying the brakes to avoid collision or reduce impact.

Blind Spot Warning² & Lane Change Assist²

Mitsubishi's Blind Spot Warning and Lane Change Assist helps you change lanes with confidence. The Lane Change Assist system sounds an audible alert and displays a blinking warning in the door mirror when the system detects a high collision probability with a vehicle coming from behind moving in the same direction within 3.5m from your vehicle's side or 70m from its rear bumper.

Multi Around Monitor[#]

Mitsubishi's Multi Around Monitor provides a 360° birds-eye view of your car. The view from cameras mounted on the front, rear and sides of the vehicle (including birds-eye view) can be displayed in various combinations to reveal what is in blind spots and help you park more safely.

Rear View Camera

The Rear View Camera system automatically shows a rear view of the vehicle when the selector lever is placed in the 'R' position. The rear view image is displayed on the Smartphone-link Display Audio screen, and includes predictive guidelines based on steering wheel position.

Adaptive Cruise Control

Mitsubishi's Adaptive Cruise Control uses radar technology to detect any cars in the lane ahead and adjusts the speed of your car accordingly while maintaining a safe distance set by you.

Driver Attention Alert

Driver Attention Alert system monitors driving style and steering behaviour over a period of time, detecting changes to normal driving pattern. When the system detects that driver attention has deteriorated, audible and visual warnings are signaled to the driver suggesting 'take a break'.

Traffic Sign Recognition

Traffic Sign Recognition uses front camera to read speed limit signs and display the most recently recognised value in the multi-information display, and in the head-up display if equipped. If the vehicle exceeds the displayed speed limit value, the displayed value will begin to blink to warn the driver.

Hill Start Assist

Steep city streets or congested shopping mall ramps are no longer a problem with Mitsubishi's Hill Start Assist technology. It prevents the car from rolling backwards by maintaining braking force to give you time to move your foot from brake to accelerator.

Hill Descent Control

Drive downhill safely with peace of mind. Hill Descent Control automatically applies the brakes when travelling downhill to maintain vehicle speed so you can focus on steering.

Emergency Lane Assist

Emergency Lane Assist uses the front camera to detect the road edge and lane markings, and front radar to detect vehicles approaching from the front, while simultaneously using the rear side radar sensors to detect vehicles approaching from the rear. Operating at speeds above 60km/h the steering wheel will vibrate and the lane departure warning light will flash when activated.

Predictive Forward Collision Warning³

Predictive Forward Collision warning uses the front radar to detect sudden braking of the vehicle traveling ahead of the vehicle directly in front. The system operates at speeds above 5km/h and will flash a warning light and sound an audible alert.

[#]Please drive safely and never rely solely on these systems while driving. Drivers are fully responsible for their own safe driving. [#]Not available on ES models +Aspire, Exceed & Exceed Tourer models only.
¹ Do not rely solely on this system, which may not detect all moving vehicles in certain conditions. ² The detection and control capabilities of BSW and LCA are supplementary only and do not warn you of vehicles in blind spot every situation. BSW and LCA may not activate in some situations. ³ The detection and control capabilities of FCM are supplementary only and do not prevent collisions in every situation. Please read the operation manual carefully and be aware of these limitations.

Mitsubishi genuine accessories have been designed to maintain the integrity of your vehicle and work with all driving systems. Please ensure if fitting non-genuine accessories that they do not interfere with any of the vehicle safety sensors as this may lead to system malfunction and/or false activation. Some accessories are not offered by Mitsubishi on certain models as they interfere with vehicle safety sensors. GENUINE ACCESSORY WARRANTY Mitsubishi Motors Australia Limited warrants that Genuine Accessories will be free from defects in material under conditions of normal use and service within Australia. When Genuine Accessories are fitted prior to the owner taking delivery of the vehicle, Genuine Accessories are covered by a 36 month or 100,000km Warranty. When Genuine Accessories are fitted after the owner has taken delivery of the new Vehicle, Genuine Accessories are warranted for whichever is the greater of the following • The balance of the 36 months or 100,000km (whichever occurs first) from date of vehicle delivery; or • 12 months or 20,000km (whichever occurs first) from date of fitment. Pictures shown are for illustration purpose and may not be product specific. Please check with your Mitsubishi dealer for specific model application.

MITSUBISHI
DIAMOND
ADVANTAGE

WHEN ALL SCHEDULED SERVICES ARE COMPLETED
AT A MITSUBISHI DEALERSHIP

All Mitsubishi Motors vehicles come with the Mitsubishi Diamond Advantage* – 10 Years Warranty* and 10 Years Capped Price Servicing^ and Roadside Assistance so that no matter where the road takes you, we will be there with you. Ask your Dealer or visit mitsubishi-motors.com.au to find out more.

*Leather appointed seats are a combination of genuine and artificial leather, and are not wholly leather. *Conditions apply. Excludes Government, Rental and National Business customers. See Mitsubishi-motors.com.au for further details. *10 Year/200,000km New Car Warranty (whichever occurs first and when all scheduled services are completed at a Mitsubishi Dealership). ^10 Year/150,000km Capped Price Servicing (whichever occurs first). Includes the first 10 regular services (at 15,000km/12 month scheduled intervals). Some items excluded or subject to separate warranty. Any non-regular service/repair items are at an additional cost. Servicing must be completed by a Mitsubishi Dealer within 7,500kms or 6 months of the service due date. Valid from date of vehicle registration. Always consult your authorised Mitsubishi Dealer for the latest details, options, availability and conditions on New Vehicle warranty. All product illustration and specifications referred to herein are believed to be correct at the time of publication approval. Subject to any applicable Federal, State or Territory Laws or ordinances, which may apply from time to time. Mitsubishi Motors Australia Limited reserves the right, without notice, or obligation, to discontinue or make changes to designs, specifications, colours and material of the options and products referred herein at any time without incurring any liability to any purchase referred.
